

SURESH KOLI

INTRODUCTION

I am a dedicated and experienced Computer Teacher with over 8 years of teaching experience in school-level computer education. I have strong knowledge of Microsoft Office packages, graphic designing, video editing, and computer operator syllabus. I am also skilled in various programming languages and passionate about sharing my knowledge with students. My goal is to make computer education easy, practical, and interesting for every learner while helping them build confidence and real-world skills.
